Concerning the attached advertisement published in the North China Daily News on September 8, 1939, same was inserted to the order of Louis HART; a Netherlander residing at 1434 Avenue Road.

Enquiries reveal that HART inherited a considerable amount of money some few years ago and commenced travelling about Europe.

Early this year HART decided to travel further abroad and visited America, India and Australia eventually arriving in Shanghai on May 10, 1939, with practically no money at all.

Recently he has been trying to get to Chungking with the object of securing a position with the Government, or, failing that of joining the Chinese Forces, but the Netherlands' Consul managed to persuade him to remain in Shanghai and try and obtain some sort of employment.

There is no file concerning this man at Police Headquarters.
